

Cast Polypropylene		Type of film	Thickness (μm)			Application	Surface Treatment	Appearance	Special Feature		
C	P	ABC	X	Y	X	D	E	F	G		
		Ultra Low Sealing initiation temperature	XYZ=015-150 microns			Agriculture	External	Transparent	Standard (Slip/Anti-Block)		
		Low Sealing initiation Temperature				Lamination	Internal	Opaque	Medium additivation		
		Standard Sealing initiation Temperature				Bag	None	White	Low additivation		
		High Sealing initiation Temperature				Textile			Metallizable		
						Metallized			Antistatic		
						Special			Antifog		
		Ultra Low Impact resistance							Oxodegradable		
		Low Impact Resistance							Peelable		
		Standard Impact Resistance							Peelable - Sterilizable		
		High Impact Resistance							Sterilizable		
		Ultra High Impact resistance							Metallizable - Sterilizable		
		Low Flexural Modulus									
		Standard Flexural Modulus									
		High Flexural Modulus
